Global Health Lecture Series

Monday, August 18

ACB 110

Noon

featuring

Andrea Tenner, MD, MPH, FACEP

War, Disaster, & Death: Managing Complex Emergencies

Andrea (Andi) Tenner, MD, MPH, FACEP is an Assistant Professor of Emergency Medicine at the University of California, San Francisco. She has been working as a core faculty member for the new emergency medicine residency program at Muhimbili National Hospital in Dar es Salaam, Tanzania, and helped to develop the curriculum for this program. She is board certified in both emergency medicine and internal medicine and has a Masters in public health with a focus on forced migration as well as a certificate from the American Society for Tropical Health and Hygiene in tropical infectious disease (CTropMed®).

Dr. Tenner has worked in multiple countries in sub-Saharan Africa, including Ghana, Rwanda, Ethiopia, Tanzania, and the Democratic Republic of Congo. She is the ACEP Lead Ambassador to Tanzania and works closely with the African Federation for Emergency Medicine. Her research interests include acute care systems development, disaster response, post-disaster emergency care and systems rebuilding, emergency care education, and tropical infectious disease.

This presentation is being co-sponsored by the Global Health Alliance and the Office of Global Health.
