

**Texas Tech University Health Sciences Center  
Student Senate Resolution  
Leisure Pool and Renovation of Existing  
Aquatic Center**

To Whom It May Concern:

On behalf of the Texas Tech University Health Sciences Center Student Government Association, we extend our support of the new leisure pool and a new roof and cooling system on the existing aquatic center that is to be implemented at the Student Recreation Center. We also recognize that the student recreation center fee will be an increase of no more than nine dollars to a total of \$69 per semester and not to be implemented until after the new facilities are completed.

As students we recognize that the new facilities will be a great addition to the HSC students and the Texas Tech University HSC community.

Thank you for your continued support of our students as well as to the Texas Tech University Health Sciences Center Student Government Association.
